

Please do not weaken our "NJ - Do Not Call" law. It has been a pleasure to come home from work and not have my answering machine loaded with automated calls, or clicks from real solicitors hanging up because they haven't reached a real person. The really great thing is not being disturbed in the evening while eating dinner, doing chores and relaxing. Also not being awakened on a day when you are able to "sleep-in".

Thanks for your consideration of my request.
